NEGROES IN THE DISTRICT.

They Want the Suffrage Restricted Because

They Charge Discrimination.

At the next session of congress a mon-

ster petition will be presented by Repre-

sentative Murray of South Carolina, the

only colored man in either house, pray-

ing for the restoration of the rights of

political suffrage in the District of Co-

lumbia. It will be signed by a major-

ity of the negroes of the District, headed

by Frederick Douglass and ex-senator

Bruce. This move grows out of the re-

fusal of the commissioners of the Dis-

trict to appoint a colored man as one of

the members of the board of assessors

recently created by act of congress. The

colored men had an applicant in the

person of Daniel A. Murray, an assist-

ant in the congressional library and a

member of the board of trade. Frederick

Douglass especially interested himself in

behalf of Mr. Murray, but the board re-

fused to appoint him. The colored peo-

ple made a stubborn fight for the as-

sessorship, and now that that has been

denied them no offices are left, and they

propose to memorialize congress for the

restoration of the right of suffrage in

the District.

When the suffrage was in vogue in

the District, the negroes were an impor-

tant factor in the government, and a

part of the patronage was accorded

them. There was a negro assistant dis-

trict attorney, a tax registrar and a city

marshal, and other lucrative offices

were filled by them. But with abolition

of the right of suffrage they have been

cut out one by one until the assessorship

was the only place filled by a negro.

Now even that has been taken away.

Frederick Douglass says that the gov-

ernment of the District is an oligarchy,

and it is a wonder to him that the peo-

ple have tolerated it as long as they have.

Under its present form of gov-

ernment he thinks it impossible for the

85,000 colored people to get any civil

or political recognition. He says the

trend is now against the negro, but

that a reaction will speedily set in.

The sentiments of Mr. Douglass are

indorsed by other prominent colored

citizens of the District, who say that if

they are not successful in their move

they will at least let the world know

they feel keenly the discrimination on

account of color in the government of

the District. The pastors of all the lo-

cal churches will be placed

at the several churches from Sunday to

Sunday for signatures. — Washington

SEVENTEEN YEAR LOCUSTS.

Interesting Account of Some of Their Do-

ings During Their Late Visit.

The 17 year locusts, about which the

newspapers printed so many articles

during the early part of the summer,

have come and gone, but their united

labors have left quite an impress upon

the forest scenery. In many places about

New York the oaks and other trees ex-

hibit a great many broken branches, the

leaves of which have withered, and as

a consequence the woodland scenes show

in checkered spots a late autumnal

brown.

In old times, before the advent of the

white man with his ax, no doubt this

periodical pruning of the forest did not

do any harm, but in these later days,

when the locusts extend their attentions

to everything that has a large enough

stem to contain their eggs—to the peach

and the pear and the apple trees, to the

currant and gooseberry bushes—his estimate

of their wide utility is lost in his consid-

eration of the orchard that has already

been pruned.

The eggs of the locusts were found

this summer in over 70 kinds of trees,

bushes and herbaceous plants. Indeed

the female locusts were so numerous

that they were often seen depositing their

eggs on the leaves of the locusts, and

everything that came in their way, of-

ten apparently by way of experiment.

The distribution of the locusts into

colonies was interesting. They occu-

pied by the million many hills and

priches of woodland that seemed to

differ in no respect from neighboring

tracts where they were not so numerous.

One of the colonies on Staten Island

about the size of the two trunks was

enclosed by the pupa shells that it

was in places completely hidden, and

the season was on the dead locusts

that to be raked up, as they gave forth

an unpleasant odor. At dusk the sound

of the many insects crawling from the

ground up the tree trunks was quite au-

dible—a constant tramping—and par-

ticularly vigorous pupae sometimes as-

cended the trees to a height of 80 feet.

The severe storm that prevailed in

the latter part of May killed and de-

formed many locusts just then emerging

from the ground and also damaged the

young leaves on the easterly sides of

exposed trees. In point of reputation

this storm also did the locusts harm, for

it was no uncommon matter to hear

them accused of causing the withered

condition of the leaves, even before

they had commenced to lay any eggs.

Who Will Go to China?

The cashier of the Second National

Bank of Altoona, Pa., has gone to Ja-

pan, carrying away a heavy bale of the

products of that institution, possibly with

the intention of helping out the island

people financially in their present crisis.

A third thing even some other cashier

ought to run away to China with a like

amount to bolster up the fiscal system of

the island. It would be hard on the

island depositor, but that type of cashier

is superior to such narrow and local in-

stincts. The case presents a variety of

considerations, as the last one of this

kind did and the next one will, but it

seems needless to enlarge upon them.

AN ADDRESS TO SENATOR JONES

The Silver State Central Committee Give Reasons Why He Should Not Resign.

HEADQUARTERS SILVER PARTY STATE CENTRAL COMMITTEE, VIRGINIA CITY, Nev., Sept. 24, 1894.

Hon. John P. Jones, United States Senator, Washington, D. C.—DEAR SIR: The State Central Committee of the Silver party of Nevada tender you its congratulations upon the courageous and independent position which you have taken in severing your relations with that party which, however brilliant in its past history, has become merely a sectional party, devoted to the protection of the industries of the New England and Middle States, and to the protection of the money which has been accumulated in those States by the aid of a generous tariff accorded by the West, now the victim of cruel and oppressive legislation. Two years ago the people of the State of Nevada, recognizing the fact that both the Republican and Democratic parties had for years misled the West by disceptive platforms on the silver question, meaning one thing in the East and another in the West and which were framed and intended as a triumph of the gold combination, determined to repudiate both their platforms and their candidates and to organize a Silver party devoted to the issue which they regarded as paramount, and to select candidates for Presidential Electors who would vote only for a free coinage candidate, regardless of party affiliations, and to elect a Congressman who would act similarly if the election were thrown into the House. The action of the Silver League of Nevada, which afterwards constituted the Silver Party, was approved by the State conventions of both the old parties and was ratified by three-fourths of the votes at the following election.

EXIST ONLY IN NAME.

The Democratic and Republican parties now exist in this State merely in name and rehabilitation can only come through decisive and unequivocal national action by one or both of them. The Western States clung with rare loyalty to the Republican party, notwithstanding its gradual and exclusive absorption in the interests of the New England and Middle States as the manufacturing and creditor section of the country. That party is responsible above all others for the destruction of silver and the appreciation of gold, and for the elevation of the creditor section and creditor classes, and for the oppression of the debtor and producing classes. It is also responsible for the destruction of the great mining industry of the six States and three Territories, comprising nearly one-third in area of the entire country, and upon which all their railroad, agriculture and business interests rests as a basis. You, as one of the great exponents of the silver cause, have for years lifted the eloquent voice of remonstrance and warning, and yet at the last session of Congress the Republican party joined a Democratic President in striking from our statutes every vestige of legislation authorizing the use of silver as money. Your remonstrance has now ripened into open revolt. In this revolt you have the hearty commendation and support of the great masses of the people in the State and section of the country which you represent.

NOT CALLED ON TO RESIGN.

We repudiate the suggestion that it is incumbent upon you to resign. You are not indebted to the Republican party for your present term of office—you were chosen by the people of Nevada, irrespective of party, and you represent the views of your constituents who elected you, and your action has been slower, not faster than theirs. We hail with satisfaction your accession to the Silver party of Nevada and we join with you in the hope that in the next Presidential election the independent sentiment of the country friendly to the silver cause may, regardless of party affiliations and regardless of other issues less important which may distract and divide them, form an organization unified by one paramount and controlling issue and sweep the country by an overwhelming victory.

THE CURSE OF THE WORLD.

Is the appreciation of gold. That appreciation can only be stopped by restoring to full monetary use its only rival, silver. The owners of gold are the few—the debtors and the producers are the many. The strength of the silver cause will be a unification of issues. To the unification of this issue the entire country west and south of the Alleghenies is drifting, and we hail your action as one of the most gratifying signs of the times.

JAS. H. KINKEAD,
Chairman Silver Party State Central Committee.

H. P. FLANNERY, Secretary.

His prices will be in keeping with the hard times and every effort will be made to give satisfaction.

A BRAKEMAN SHOT.

A Tramp Fires a Shot With Almost Fatal Results.

As freight train No. 8 was pulling out towards Truckee at about 8 o'clock yesterday morning, Conductor LaFoye being in charge, Brakeman M. G. Collins went into a car and found several tramps, whom he began routing out. One of whom, who gives his name as Edward West, did not move at once, or was slower in getting out at once, or others, and the tramp says Collins struck him on the head with a club, knocking him down. A tussle followed, in which West fell out of the door. Collins followed West, striking him again, knocking him down and then kicked him. West grabbed the stick and held on, and Collins placed his foot on West's chest, at the same time trying to wrest the stick away from him. West pulled a pistol and fired two shots, the first missing Collins and the second striking him just below the left eye, the ball ranging along the cheek bone and being removed from near the temple. The wound was a painful one, but not dangerous.

The train was backed down into town and the alarm given. Officer Nash and Constable Dickey started out immediately and overhauled West near the chalk bluffs. He was almost exhausted from loss of blood, from the wounds on his head made by the club that Collins used on him. He surrendered quietly and was brought back to town and his wounds dressed. His case will likely be considered by the Grand Jury now in session. His hands indicate that he is a hard working man, and his story seems pretty straight. He was on his way to California, and was in company with a gang of "hoboes," but denies being a member of the craft, claiming that he only knew a few of them as traveling companions.

Jockey Club Meeting.

The Directors of the Jockey Club met yesterday and awarded the pool privilege to John P. Sweeney of Carson, the music to G. Hoskins' Juvenile band. Bids were opened for the bar privilege, but owing to the highest bidder being a man unknown to the Board, the matter was laid over so that the bidder would have an opportunity to make himself known. Wagon licenses were fixed at \$5 for a two-horse team and \$7.50 for a four-horse team.

It was decided to have a ladies tournament for Wednesday and Saturday, four or more to compete, first prize \$30; second, \$15.

The following appointments to positions were made: S. M. Jamison ticket agent, J. E. Phillips first gate, Chas. J. Campe exit gate, T. McGovern track gates, George Avery license man, J. P. Richardson watchman, H. W. Higgins clerk in judges stand, Robert Sage clerk in pool-stand, O. H. Perry clerk in Paris mutuels, W. H. Buckland ticket agent for grandstand, Raymond Reese ticket boy, J. V. Peers grandstand, Barney Campbell marshal.

Comstock Republicans.

The Republicans of Storey county met in convention yesterday and nominated the following ticket:

William McMillan for State Senator; Charles Meyer, T. L. Beals, William Hall, Richard Jennings, J. A. Conbole and Paul Correll for Assemblymen; W. J. Hill for Sheriff; W. H. Tully for County Clerk; H. E. Nye for County Recorder; F. P. Langan for District Attorney; Charles Wilbur for long-term County Commissioner; Thomas Manery for short-term County Commissioner; J. L. Godfrey for Public Administrator; Zeb Day for County Surveyor.

Overland Cyclists.

H. J. Alford and G. S. Easton, two young men from St. Louis, arrived here yesterday, having left their home on the 26th of July, making the trip on bicycles. They are not trying to make any record, but simply making the tour for pleasure. They took in the Yellowstone country, travelling nearly 1,000 miles out of their way. They will go from here to Truckee, thence to Tahoe and will likely continue their journey via Placerville to San Francisco. The young men were travel-stained and tanned but otherwise were in good trim for the long ride ahead of them.

The Removal of a Cancer.

Dr. John A. Wyeth of New York performed an extraordinary and successful surgical operation in the removal of a cancer from the throat of E. H. Houghton, a man over sixty years of age. Sagebrush Cyclers.

Sunday afternoon about fifteen of Reno's best wheelmen took a ride to Steamboat and return. The distance going was covered in one hour, seventeen minutes and thirteen seconds, according to Nelse Coffin's "Waterbury." That was very fast traveling, and in places where the road was good the boys said the telegraph poles looked like teeth in a fine comb as they flew by. There were no accidents and the only thing that approached one was when Harry Stewart was thrown from his wheel. He was going at great speed when his wheel struck a hole in the road. He was thrown into the air and turned a double summersault, lighting on his feet; his wheel, however, kept on going and he mounted it as it came up without losing hardly a second's time. This is considered a very remarkable feat.

Al. Helmsold is Captain of the club, and Sam Mozingo First Lieutenant. The other commissioned and non-commissioned officers the reporter did not learn, but he understands there is but one high private in the club.

At Steamboat they had a fine dinner and took their regular annual bath. On their return home Dan Huffaker treated them all to the hospitality of his pump, and they desire to return him their thanks. The club recommend that the Commissioners macadamize the road between here and Steamboat for at present it is slightly rough. Ralph Hussey made the fastest time coming home as he had to catch the evening train from California.
